Outback® Accessories

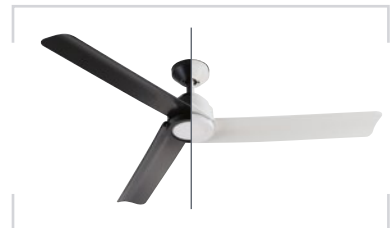

STRATCO

OUTBACK®

VERANDAHS • PATIOS • CARPORTS • SUNROOF

Sunroof Louvre Lights

- Ideal for Outback® Sunroof Patios and Pavilion Allure
- Daylight White 5000K colour temperature dimmable LEDs
- Bright 500 Lumen/m² light output
- UV protected cables for outdoor use
- 24V plug & play wiring for DIY install
- IP68 rating

Sunroof Rain Sensor

- Designed to automatically close your patio louvres when it rains
- Once the sensor pad detects enough moisture, the sensor commands the louvres to close
- Three sensitivity settings to control the speed of closing
- The sensor pad's inbuilt heater clears moisture after a rain alarm

Wall or Post Mounted Remote

- Teleco TVZOOK is the ultimate remote control for louvre operation
- Wi-Fi enabled transmitter with a modern, sleek design
- Mount on a wall or patio post
- Can be paired with the Altana app, allowing full control of your Stratco Louvre roof with your smartphone
- IP54 rating

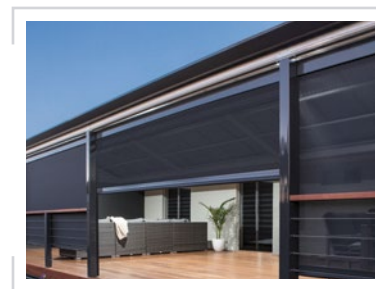

Electric Strip Heaters

- Sleek and space-saving solution for outdoor heating
- Provides a powerful yet gentle heating experience
- Adjustable heat settings for maximum comfort
- The stylish Thermofilm Heat Strip delivers efficient warmth with a 2400W heat setting
- The Excelair Heat Strip offers the same benefits with the added convenience of a remote control

Ambient® Outdoor Blinds

- Provide privacy and protection from the sun, breeze, rain and insects all year round
- Durable, tear resistant PVC coated polyester fabric
- UV tolerant, mould & mildew resistant
- Fabric seams are high-frequency welded for a long service life
- Variety of popular colours available
- Choice of 3 openness factors:
 - 1% Openness for excellent breeze control and privacy
 - 5% Openness for a combination of shading, privacy and views
 - 15% Openness for excellent shading while retaining great views
